

## PET POLICY & VERIFICATION

\_\_\_\_\_  
Foster Family

Foster group homes and foster family homes must keep Family Link informed of the pets that live in the home. This also includes letting the agency know if pets are no longer in the home for whatever reason.

The Minimum State Standards 749.2917(c) states: any animals on the premises of a home must be kept free of disease. Animals must be vaccinated and treated as recommended by a licensed veterinarian. The caregivers must have documentation at the home showing that dogs, cats, and ferrets have been vaccinated as required by Texas Health and Safety Code, Chapter 826.

Please list pets and dates of vaccinations. This is an annual requirement.  
Non-compliances must be corrected and verified within 7 days

Name & Type of Pet	Date & Type of Vaccination
_____	_____
_____	_____
_____	_____
_____	_____
_____	_____
_____	_____
_____	_____

\_\_\_\_ This foster home does not have any pets at this time. If the home were to add a pet I will notify Family Link within 24 hours of this addition, and obtain and/or provide proof of the vaccinations as soon as possible.
